

## Choose the new Blue

Greater mechanical strength, flexible handling and an eco-friendly design? The new T2Blue+ combines all you need into one underfloor heating cable kit. Trusted for 25 years, now improved for even better performance. All the more reason to choose the new blue.

T2Blue+ is an electric floor heating cable with constant power output. It is a pre-terminated, dual conductor heater with a 2.5m cold lead attached at one end. The easy to install cable should be embedded in a layer of filler and can also be fitted into the Raychem Membranes. The higher the cable is positioned in the floor construction, the more energy efficient it is to regulate the cable!

### THE FUTURE PROOF FLOOR HEATING CABLE IS HERE!

#### 1. Combined Cable Qualities

T2Blue+ offers a single cable for various installation methods, combining top mechanical strength with a flexible design for easy handling, pressure resistance, and lasting cable memory.

#### 2. Future Proof Floor Heating

T2Blue+ cable kits support future needs with efficient membrane installation options and an eco-conscious design that is free from PFAS and forever plastics, disposes easily with a less packaging waste, and saves energy by sitting close to the surface.

#### 3. Wifi From The Start

The T2Blue+ cable kit comes with a Wifi thermostat that offers smart connectivity from the start, adding instant value to your installation.

7 W/m  
or  
12 W/m

#### Mechanical Strength:

- T2Blue+ cable has been tested according to **IEC/IEEE 62395-1:2024** for: Deformation, impact, tensile and cutting resistance.
- Test result: **For installations with higher risk of mechanical damage.**

#### PFAS-Free:

- Due to the environmental and health risks, PFAS is now in the process of **being banned or severely restricted** within the EU and many other countries.
- T2Blue+ cable is designed to **meet both today's and tomorrow's demands** – without compromising on performance.

### CABLE RANGE

T2Blue+ 7W	Part Number	
	Without Thermostat	With Thermostat
T2Blue+ 7-15 m	2000005312	2000005693
T2Blue+ 7-20 m	2000005313	2000005694
T2Blue+ 7-25 m	2000005314	2000005695
T2Blue+ 7-30 m	2000005315	2000005696
T2Blue+ 7-40 m	2000005316	2000005697
T2Blue+ 7-50 m	2000005317	2000005698
T2Blue+ 7-60 m	2000005318	2000005699
T2Blue+ 7-80 m	2000005319	2000005700
T2Blue+ 7-100 m	2000005320	2000005701
T2Blue+ 7-120 m	2000005321	2000005702
T2Blue+ 7-140 m	2000005322	2000005703
T2Blue+ 7-160 m	2000005323	2000005704
T2Blue+ 7-180 m	2000005324	2000005705

T2Blue+ 12W	Part Number	
	Without Thermostat	With Thermostat
T2Blue+ 12-10 m	2000005325	2000005706
T2Blue+ 12-15 m	2000005326	2000005707
T2Blue+ 12-20 m	2000005327	2000005708
T2Blue+ 12-25 m	2000005328	2000005709
T2Blue+ 12-30 m	2000005329	2000005710
T2Blue+ 12-40 m	2000005330	2000005711
T2Blue+ 12-50 m	2000005331	2000005712
T2Blue+ 12-60 m	2000005332	2000005713
T2Blue+ 12-80 m	2000005333	2000005714
T2Blue+ 12-100 m	2000005334	2000005715
T2Blue+ 12-120 m	2000005335	2000005716
T2Blue+ 12-140 m	2000005336	2000005717
T2Blue+ 12-160 m	2000005337	2000005718
T2Blue+ 12-180 m	2000005338	2000005719
